

GATEWAY Program

The Marketplace Entry & Profit Map

1. Portfolio Task: The "Marketplace Entry & Profit Map"

A. The Marketplace Search:

- **Platform Choice:** (e.g., TERAWORK, Upwork, or LinkedIn).

e.g. Platform Choice: TERAWORK (Choosing to earn in Naira for local needs).

TERAWORK — I chose TERAWORK because it provides opportunities to connect with clients who need digital services, including graphic design and potentially UI/UX design. I am interested in serving both Nigerian and international clients as I develop my skills.

- **Job Selection:** Paste a link or screenshot of a "Verified" job post that fits your niche.

e.g. Job Selection: [Screenshot of a Social Media Manager post with a Verified Payment Shield].

UI/UX Design for a Small Business Website or Mobile Application.
I will attach a screenshot or publicly accessible link to an actual verified job post before submitting this assignment.

- **The Hook:** Write the first two sentences you would send to this specific client.

e.g. The Hook: "I see you want more people to notice and talk to your brand on Instagram. I helped a local boutique increase their comments by 40% last month, and I can do the same for you".

Hello, I noticed that you are looking for a UI/UX designer to improve your digital product. I can help you create a clean, modern, and user-friendly interface that makes it easier for your customers to navigate and interact with your product. I would be happy to discuss your requirements and show you how I can contribute to your project.

B. The Business Math (Tolu's Formula):

- **Proposed Bid/Price:** (e.g., ₦20,000).

e.g. Proposed Bid/Price: ₦20,000.

₦50,00

GATEWAY Program

- **Estimated Data Cost (₦):**

e.g. Estimated Data Cost: ₦4,000.

₦4,00

- **Estimated Power/Fuel Cost (₦):**

e.g. Estimated Power/Fuel Cost: ₦3,000.

₦2,00

- **Net Profit:** (Price minus Expenses): (₦)

e.g. Net Profit: ₦13,000 (This is your real income after expenses).

~~₦44,000.~~

Calculation: ~~₦50,000~~ – ~~₦4,000~~ – ~~₦2,000~~ = ~~₦44,000~~

Note: These are estimated costs for planning purposes. Actual expenses may vary depending on the project and available resources.

C. The Safety Check (Emeka's Guardrails):

- Identify one "Red Flag" you will look out for in this specific niche.

e.g. Identify one "Red Flag": The client asking me to move the conversation to WhatsApp or Telegram before the contract has officially started on the platform.

A client asking me to pay an upfront fee, purchase special software from an unknown link, or move communication and payment outside the platform before a contract is officially established. I will verify the client's identity, avoid suspicious links, and use secure payment procedures.

- **Digital Testimony Plan:** Write the exact sentence you will use to ask for a 5-star review.

e.g. Digital Testimony Plan: "I am glad we reached your goal! If you are satisfied with the service, please leave a 5-star review to help other clients find my business".

I am glad we successfully completed your project! If you are satisfied with my work and the service I provided, I would really appreciate it if you could leave me a 5-star review. Your feedback will help me build my professional reputation and reach more clients.
