The Niche Mapping Tool

A. Worksheet: "The Niche Mapping Tool" Purpose: A 4-step exercise to help you find your "Specialty."

Content: A table where you list:

✕ 1. What you enjoy doing.

e.g. I enjoy organizing schedules and keeping track of complex details.

I enjoy working with AI to make my work faster and more efficient. I especially enjoy creating reusable systems and automations for tasks I would otherwise repeat, so I can improve and scale my workflow as I grow.

2. What you are already good at

e.g. I am excellent at using Google Calendar, Excel, and responding to emails quickly.

I enjoy working with AI to make my work faster and more efficient. I especially enjoy creating reusable systems and automations for tasks I would otherwise repeat, so I can improve and scale my workflow as I grow.

3. Which digital role from the list matches those two.

e.g. Virtual Assistant (VA).

UI/UX Designer / AI-assisted Digital Product Designer

4. Who your typical client would be.

e.g. Busy tech founders in Abuja who need help managing their daily operations.

Small businesses, startups, creators, and organizations that need modern, user-friendly digital products or interfaces and want efficient AI-assisted design and digital workflows.
